

Installing the ClinicalKey app:

1. Open the App Store on your mobile device
2. Search for “ClinicalKey” and install the free app
3. Once in the app, two options will appear – Click on ClinicalKey
4. Enter your **registered*** ClinicalKey username and password and start using the ClinicalKey App!

***Registration** is necessary to use the app. Create your personal account in 3 easy steps!

1. Go to www.clinicalkey.com and click Register in the top right corner.
2. Using your **uhsm email address**, fill in the required information on the registration page.
3. Click Register when finished. ClinicalKey will display an activation message and sends a confirmation email.
